To whom it may concern:

This is to confirm that DKB Steelworx redid our office Gate and palisade after the prior work done resulted in seized bearings, causing the gate to stick and we had to leave it open. I contacted Riaan late that afternoon, knowing that this was urgent. (Riaan and DKB had previously installed a Clearvu fence and gate at my home, where I was not only impressed with the quality of the workmanship, but also the cost and level of professionalism we experienced when compared to other Johannesburg Contractors). True to form, Riaan and crew arrived 1st thing in the morning and not only fixed what was quoted on, but also remounted the gate motor which has rattled loose.

I would unreservedly recommend Riaan and DKB Steelworx for any job or assignment, regardless of size.

They are reliable, do fantastic work and are very well priced.

Sincerely,

Bradley Taylor
